COVID-19 Protection

As the COVID-19 pandemic continues to affect communities across the globe, Piedmont Plastics is proud to offer a variety of solutions focused on providing safety and protection against the spread of infectious disease.

During this time, as local counties and states begin to ease restrictions and reopen businesses, it is more important than ever to ensure that proper precautions and safeguards are put in place to protect employees and customers alike. From hospitals and medical facilities to retail stores, office buildings, and public transportation, performance plastics can provide critical solutions for ongoing protection efforts.

Piedmont Plastics is fully stocked with a number of products for applications ranging from personal protective equipment and temporary or permanent barrier solutions to social distancing floor graphics, window displays and more. Products including acrylic, polycarbonate, PETG and laminates provide crucial virus protection by preventing the transfer of infectious fluids and diseases from people in close contact, such as doctors and nurses, cashiers, bus drivers, and more. Additionally, sign and graphics products, including temporary outdoor signage and removable floor graphics, can convey important guidelines and reminders to individuals in public places. Piedmont Plastics also offers advanced antimicrobial materials that help to significantly reduce bacteria on surfaces.

Reach out to a qualified Piedmont Plastics expert today to help find the best solution for all of your virus protection needs.
